DETAILED ACTION

The application having Application No. 10,621,734 has a total of 14 claims pending in the application; there are 2 independent claims and 12 dependent claims. This is in response to the amendment filed 6/8/2006. Claims 1, 2, 4, 5, 7, 8, 9, 10, 11, 13, and 14 are amended. The section 112 rejection for claims 8-14 is withdrawn in view of applicant's arguments. The rejection is withdrawn. The section 112 rejection for claim 13 is withdrawn in view of applicant's amendment.. The rejection is withdrawn. The corrections to the drawings has been noted and entered. The objection is withdrawn.

Allowable Subject Matter

Claims 1-14 are allowed.

Claims 15-16 are cancelled.

The following is an examiner's statement of reasons for allowance: the present invention is drawn to providing encryption in a communication system using encryption vectors and also ensuring the receipt of packets by use of acknowledgements, all occurring at the physical layer. More specifically, independent claims 1 and 8 identify the uniquely distinct features: a first *physical layer* packet encrypted using a first encryption vector to a receiving device, wherein the first *physical layer* packet comprises a second encryption vector (emphasis added by the examiner). The closest prior art Srivastava et al. with U.S. Patent No. 6,684,331, also disclose the encryption using a first encryption vector wherein the first packet comprises a second encryption

vector. However, Srivastava et al. does not disclose this encryption method occurring at the physical layer. The prior art, taken either singly or in combination, fails to anticipate or fairly suggest the limitations of applicant's independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The claimed invention is therefore considered to be in condition for allowance as being novel and nonobvious over prior art. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

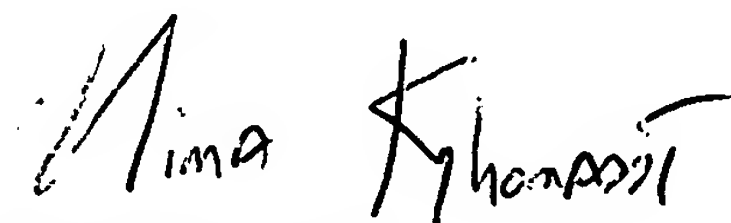

Any inquiry concerning this communication or earlier communications should be directed to Nima Khomassi whose telephone number is (571) 272-3775. The examiner can normally be reached Monday-Friday from 8:30 AM to 5:00 PM. If the examiner is unavailable, Applicant is advised to leave a voicemail message which will be returned by the next business day.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gilberto Barron Jr., can be reached at (571) 272-3799.

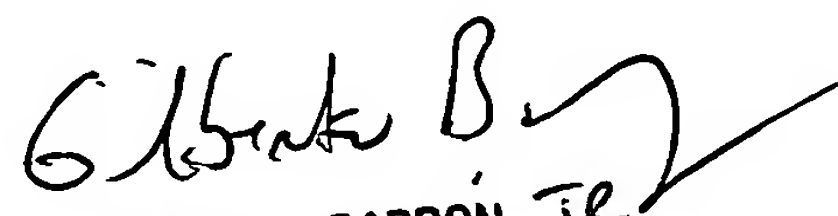

The fax number for Formal or Official faxes to Technology Center 2100 is 571-273-8300. On July 15, 2005, the Central Facsimile (FAX) Number changed from 703-872-9306 to 571-273-8300. As of September 15, 2005, the former is no longer in service; the latter is the only facsimile number recognized for centralized delivery.
